

Product overview

product name	A1AG2 rabbit Polyclonal Antibody
catalog No.	ATA24092
Category	Primary antibodies
Host	Rabbit
Species specificity	Human
Tested applications	WB,ELISA
Clonality	Polyclonal
Conjugation	Unconjugated
Immunogen	Synthesized peptide derived from human protein . at AA range: 40-120

Product performance

Form	Liquid
Storage	Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 4 °C for frequent use. Store at -20 to -80 °C for twelve months from the date of receipt.
Purity	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

Dilution range

WB 1:500-2000 ELISA 1:5000-20000

Product background

orosomucoid 2(ORM2) Homo sapiens This gene encodes a key acute phase plasma protein. Because of its increase due to acute inflammation, this protein is classified as an acute-phase reactant. The specific function of this protein has not yet been determined; however, it may be involved in aspects of immunosuppression. [provided by RefSeq, Jul 2008],
