

## Product Details

|                                         |             |
|-----------------------------------------|-------------|
| Catalog No.                             | ATAD00161   |
| INN (International Nonproprietary Name) | Pagibaximab |
| Purity                                  | >95%        |

## SDS-PAGE image

|                 |                                                   |
|-----------------|---------------------------------------------------|
| Concentration   | 1 mg/ml                                           |
| Formulation     | PBS buffer PH7.4                                  |
| Source          | CHO cells                                         |
| Endotoxin level | Please contact with the lab for this information. |
| Note            | For research use only .                           |

## Bioactivity

|                                  |                                                                           |
|----------------------------------|---------------------------------------------------------------------------|
| Alternative names                | BSYX-A110, PMAB                                                           |
| Specificity target name; species | Staphylococcus epidermidis lipoteichoic acid [Staphylococcus epidermidis] |
| Species                          | Chimeric                                                                  |
| Receptor identification          | IgG1-kappa                                                                |

## Chemistry

|         |                                                                                                                                                                         |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CAS     | 595566-61-3                                                                                                                                                             |
| Storage | Use a manual defrost freezer and avoid repeated freeze-thaw cycles.<br>Store at +4°C short term (1-2 weeks).<br>Store at -20 °C 12 months.<br>Store at -80°C long term. |
