

ATAGENIX LABORATORIES

Catalog Number:ATEP02448COV Recombinant 2019-nCoV Nucleocapsid protein

Product Details

Summary

Product name Recombinant 2019-nCoV Nucleocapsid protein

Catalog# ATEP02448COV

description Recombinant SARS-CoV-2 Nucleocapsid protein is produced by E.coli expression

system and the target gene encoding Met1-Ala419 is expressed with N-His Tag

Expression system E.coli

Species Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2)

Accession # QHD43423.2

Alternative names Nucleoprotein

Predicted Molecular Mass 47.79kDa

Actual Molecular Mass 50-60kDa

Purity >90% as determined by SDS-PAGE

Endotoxin level Please contact with the lab for this information.

Formulation Lyophilized.Lyophilized from a solution in PBS pH 7.4, 1mM EDTA, 4% Trehalose,

1% Mannitol.

Shipping In general, proteins are shipped out with blue ice unless customers require

otherwise.

Stability &Storage Use a manual defrost freezer and avoid repeated freeze thaw cycles.

Store at 2 to 8 °C for one week .

Store at -20 to -80 °C for twelve months from the date of receipt.

Reconstitution Reconstitute in sterile water for a stock solution.

Application Immunogen

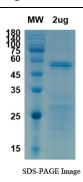

Spcificity

Bioactivity

Recombinant SARS-CoV-2 Nucleoprotein (ATEP02448COV) can reacted with positive serum at various dilution of 1:640, 1:320, 1:160, 1:80, 1:40, 1:20 and 1:10 measured by a functional ELISA assay.

Background

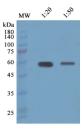

Coronavirus N protein is required for coronavirus RNA synthesis, and has RNA chaperone activity that may be involved in template switch. Nucleocapsid protein is a most abundant protein of coronavirus. N protein packages the positive strand viral genome RNA into a helical ribonucleocapsid (RNP) and plays a fundamental role during virion assembly through its interactions with the viral genome and membrane protein M. Plays an important role in enhancing the efficiency of subgenomic viral RNA transcription as well as viral replication. Because of the conservation of N protein sequence and its strong immunogenicity, the N protein of coronavirus is chosen as a diagnostic tool.

Product performance

Form

Recombinant SARS-CoV-2(2019-nCoV) Nucleocapsid protein

Tested Picture

WB result of SARS-CoV-2 Nucleocapsid protein (ATEP02448COV) by using positive serum at dilution of 1:20 and 1:50
